

TESTIMONIAL

“Foothill Dental Ceramics Inc. who has been working with me for a long time and has done numerous different implant cases, is satisfying me and my patients by always providing the optimal implants.

In particular John Lee, the head technician has a lot of knowledge, experience and outstanding skills about implants and I am confident that it will give you the faith you can trust at any time and in any situation.

I highly recommend Foothill Dental Ceramics Inc. to anyone who does a lot of implants including doctors who start implants.”

- Doctor of Medicine (UCSF)
- Master of Public Health (Harvard Univ.)
- Doctor of Dental Medicine (Harvard Univ.)
- Bachelor of Science (UC Davis)

Dr. Wang has been published in various publications, including the Journal of Oral & Maxillofacial Surgery, the journal published by the American Association of Oral & Maxillofacial Surgeons. She enjoys learning about new techniques, developments and products for the improvement of dental care for her patients and imparting that knowledge to other oral surgeons and dentists through the lectures she gives at various study club meetings.
